Formats Include: art, dst, exp, hus, jef, ofm, pes, vip, vp3, xxx • Note: Designs are not limited to creating greeting cards.

## Instructions for the Embroidered Cards

Items you will need for this project:

Cut away stabilizer

4.25" X 5.50" Cardstock - for postcard size

8.50" X 11" Cardstock - for folded card

Double sided tape

1. Hoop cut away stabilizer.

2. Place double sided tape on the under side of the cardstock. This will hold the paper in place for the embroidery.

(To create the folded card, place the card inside facing down, so the front of the card is in the hoop area. Use double sided tape to hold the card in place.)

3. Embroider the design.
4. Remove from hoop.

5. Trim the stabilizer close the outside stitches.

6. Cover the back of the threads with another piece of cardstock. Use double sided tape or a glue that won't soak through the paper. Add stickers & embellishments.

7. Your card is now complete!

Note: Designs are not limited to creating greeting cards. This collection consists of the 15 designs shown above and does not include the card stock or embellishments.
