**Color run and design
information**

The number in parenthesis after the color is the Madeira thread cone number

The "outline" color change will show you the area you should cover with your 3d Puffy foam piece. We "float" the foam over the area and let the next color change anchor the foam in place or you can secure with tape or other method. The next color will be the satin stitching that will cover the foam. For best results, use foam that closely matches in color. Tear away excess foam after it has been covered with the satin stitches, before proceeding to the next color change. You can find 3D Embroidery Puffy Foam online or in craft stores.

DESIGNS MAY BE SEWN WITHOUT USING PUFFY FOAM

3D PUFF NOEL

File: XM3296 (24)
