### Instructions for Pacifier Holders

Items you will need for this project:

Ribbon of your choice, 5/8" to 1" wide

Suspender/mitten clips

Scissors

Measuring tape

Needle and thread

Felt material

Pacifier

Plastic Snaps Size 20

Snap pliers

Parchment paper or tear away

1. Embroider design on felt.
2. Cut circle 2 3/4" in diameter using parchment paper or a left over piece of backing
3. Cut the embroidered piece and another piece of felt for the back.
4. Cut ribbon 13" or longer if you like.
5. Put the ribbon through the sandwiched pieces of felt leaving about 1 1/2 inches from the top for putting the snap on.

6. Pin and free hand sew the edge of the material together.
7. Place a snap on each end coming out the top. You will just flip the ribbon over leaving enough material for the snap for the clip.
8. When placing the snap for the pacifier, make sure you leave enough room so the ribbon will fit around the pacifier.
9. Test your snaps.
10. Place the Clip on the short end and the pacifier on the long end.
11. Project is finished!
